STEM Scholars Compete for Over \$1.9 Million in Scholarships and Awards *The Ohio State University Hosts 60th Annual State Science Day*

COLUMBUS, Ohio, April 24 — On Saturday, May 10, 2008, over 1,000 aspiring science, technology, engineering, and mathematics (STEM) students in grades 7–12 from 283 schools in 65 Ohio counties will exhibit their science research projects at the 60th annual **State Science Day** hosted by The Ohio State University in the French Field House, 460 Woody Hayes Drive, Columbus. The STEM scholars will vie for more than \$1.9 million in scholarships and awards.

“STEM is a bridge to our future linked by the spans of technology and engineering that rest on the foundations of science and mathematics,” says Lynn Elfner (43212), chief executive officer of The Ohio Academy of Science. “More STEM scholars and their supporters will appear at State Science Day than at any other time or place all year.”

State Science Day is to STEM education as a state championship game is to athletics. Judges evaluate student-originated, inquiry-based projects and the scientific research and communication skills of the students who advanced to the state-level competition from 16 district science days.

“We are delighted that Ohio State is once again hosting this great competition,” adds The Ohio State University President E. Gordon Gee, Ph.D. (43210), in regard to **State Science Day**. “These young people possess remarkable creativity and problem-solving abilities, and they will shape a bright future for Ohio and beyond.”

Since 1949, local, district, and **State Science Days** have comprised Ohio’s largest and most far-reaching STEM education program producing graduates who pursue careers in science, technology, engineering, and mathematics. More than 50,000 students have participated in the annual event.

Among the many awards at **State Science Day** are Governor’s Awards for Excellence in Student Research in agriculture and food science, biotechnology, environmental science, information science and technology, manufacturing sciences, materials science, and water resources research.

The Ohio Academy of Science, American Electric Power, The Ohio Environmental Education Fund, and Boehringer Ingelheim Roxane, Inc., sponsor **State Science Day**. The Ohio State University Office of Continuing Education’s (CEd’s) Ashleigh Windnagel (43220) is the event’s site coordinator.

For more information about **State Science Day**, visit statescienceday.osu.edu or call (614) 488-2228.

-more-

The Department of Conference Management in The Ohio State University Office of Continuing Education (CEd) specializes in providing meeting and conference management services — from pre-conference concept to post-conference follow-up — on a cost-effective basis to the university community as well as to private and public businesses and associations. For more information on CEd's Conference Management services, visit ced.osu.edu and click on "Conference Management," or call the Office of Continuing Education at (614) 292-8571.

###

Editor's Note: Attached is a roster of participating students from Ohio schools.

Although the public viewing of student exhibits starts at 12:30 p.m. and ends at 1:45 p.m. in the French Field House, 460 Woody Hayes Drive, the judging is from **9 a.m.-12:30 p.m., which is the best time for reporters and photographers/cameramen to do interviews with students, judges, etc. Just ask for Latina A. D. Rockhold, CEd public relations/communications coordinator, and she can get you access before the hectic public viewing.**

Starting at 10 a.m. in St. John Arena, 410 Woody Hayes Drive, President Gee will address parents at a meeting titled "Where do we go from here?" An interactive Fun with Physics Science Demonstration and the awards ceremony begin at 2 p.m. in St. John Arena. Admission is free.

Interviews regarding **State Science Day** are available by contacting Latina Rockhold at (614) 688-3310 or rockhold.14@osu.edu
